Electronic Home Monitoring (EHM)

1010.1 PURPOSE AND SCOPE

This policy outlines one of the alternative to incarceration offered at Thurston County Corrections Facility Electronic Home Monitoring (EHM) Is a court-authorized Correctional Options Program whereby eligible offenders may reside in their home and are monitored electronically for movement upon leaving and entering their residence.

1010.2 POLICY

The Thurston County Sheriff's Office Corrections Bureau will establish a protocol for booking inmates on to court-authorized Correctional Options Electronic Home Monitoring Program, For purposes of employment, job search, education, and/or treatment. These alternative sentencing programs offer inmates who are serving their sentences an opportunity to continue to preserve family and community ties by upholding their commitments and obligations to those who may offer support to the inmate when they are released from custody

All participants must be court-authorized for consideration to participate. Defendants on this program may be subject to random urinalysis, breathalyzer, and site visits.

Program fees are required for participation unless waived or reduced via the fee waiver policy.
